

WE' RE Hiring

Chief Operating Officer (1 Post)

Key Responsibilities

Required Capabilities

- Design, develop, and implement fully automated manufacturing and packaging systems.
- Demonstrate strong understanding and practical application of automation systems and emerging industry trends.
- Operate and maintain automated systems for the safe handling of hazardous products.
- Lead the EPC execution of a new agrochemical factory, including project planning, equipment installation, commissioning, and production startup.

Roles and Responsibilities

- Oversee day-to-day manufacturing operations to ensure smooth, efficient, and safe production.
- Ensure effective quality management, regulatory compliance, and workplace safety across all operational activities.
- Drive continuous improvement initiatives to enhance productivity, efficiency, and cost-effectiveness.
- Build, lead, and develop a high-performing operations team capable of meeting business and production objectives.

Qualifications & Requirements

- Minimum bachelor's degree in Mechanical Engineering or a related field.
- Master's degree in Mechanical Engineering, Business Administration, or a related discipline is preferred.
- Minimum 5 years of overseas work experience in hazardous chemical manufacturing, industrial processing, or automated production facilities.
- Age 30 years and above. Age is negotiable based on qualifications and experience.
- Strong knowledge of automated production systems, packaging machine technology, hazardous chemical handling, plant maintenance management, industrial safety standards, risk assessment, and emergency response planning.
- Knowledge of ISO and Occupational Safety and Environmental Management Systems.
- Proven leadership and project management experience.
- Proficient in computer applications and business reporting tools.
- Excellent English communication and reporting skills, with fluency in both spoken and written English.
- Chinese language proficiency is an advantage.

Salary & Benefits

- Minimum salary of MMK 7,000,000 per month.
- Salary is negotiable based on qualifications and experience.
- Additional benefits will be provided in accordance with company policy.
