GLOBAL SERVICES

## Atalian Microbe Shield

**Long-lasting germ protection  
for your staff and customers**

**Infection protection stay  
active for up to 30 days**

# INFECTION PREVENTION SOLUTIONS TO GIVE YOU PEACE OF MIND

From contamination to common bugs or a health crisis, with lasting germ protection for hands and surfaces, Atalian Microbe Shield uses the latest innovative technology to help keep your people safe and healthy during this challenging time.

Our advanced long-lasting antimicrobial solution is proven to **stay active for up to 30 days** on surfaces to protect you **against 99.9% of germs** and prevent the spread of disruptive pathogens.

## 3 Steps process:

**Cleaning to  
remove matter**

**Disinfection to  
protect surfaces**

**Hygiene testing to  
ensure germ-free**

## Experience noticeable results:

- ✓ **Cost savings**
- ✓ **Reduces absenteeism**
- ✓ **Reduces risk of serious illnesses**
- ✓ **Prevents mutation (superbugs)**
- ✓ **Lesser down-time of facilities**

# BACKED BY RESEARCH & INNOVATIVE TECHNOLOGY TO KEEP YOU HEALTHY

Supported by 100+ independent laboratory tests and has been proven to kill a wide range of pathogens.

## Viruses

- SARS-CoV-2
- SARS
- MERS
- H1N1
- H3N2
- Ebola

## Bacteria

- MRSA
- E-coli
- Listeria
- Tuberculosis
- Salmonella
- Legionella
- Staphylococcus aureus

## Fungi

- Aspergillus Niger
- Black mould
- Thrush

30 DAYS SURFACE PROTECTION

Our formulation kills by a physical process. A layer of positively charged microscopic pins coat the surface and attract and kill pathogens by rupturing their cells. This protective membrane remains intact and effective on a surface for up to 30 days.

## Atalian Microbe Shield

Water-Based

No Alcohol

Lasts up to 24hrs on skin

Toxicity similar to Vitamin C

Lasts up to 30 days on surfaces

Lasts up to 20 washes on fabrics

- Cleaning and disinfection removes/kills microorganisms at the point of use.
- Surfaces quickly become re-contaminated after 2 hours.
- Atalian Microbe Shield creates a residual barrier to greatly reduce re-contamination.

# PROTECT YOUR STAFF & CUSTOMERS AGAINST BACTERIA FOR UP TO 24 HOUR

For hand application use in conjunction with hand hygiene routines. Apply 2 pumps to your hands every morning.

- Clean hands of visible dirt using soap and water.
- Ensure hands are fully dry prior to application.
- Apply 2 pumps to hands.
- Rub hands together, front and back, ensuring all surfaces of skin are covered with product.
- Keep rubbing for 30 seconds or until dry.
- Continue hand washing at regular intervals throughout the day to prevent the build-up of dirt.

Proper hand hygiene can reduce absenteeism at work by up to 40%.

Employees who use sanitiser regularly are about 67% less likely to get sick.

30 seconds of using hand sanitiser kills as much bacteria as two full minutes of handwashing.

Offices with a sanitisation program report 24% fewer claims for hand hygiene preventable diseases.

ATALIAN Global Services Myanmar provide the supply of hand sanitisers to protect your family, communities and business against 99.9% of germs for up to 24 hour with one application in the morning.

The 99% water-based formulation will leave your hands feeling soft and smooth after each application.

- ✓ Provides up to 24 hour infection prevention even after washing hands
- ✓ Protects against 99.9% of germs
- ✓ Dermatologically tested

Hand sanitiser for up to 24 hour germ protection
