

Dear Partners,

Greetings from Samitivej Hospitals.

In light of the recent surge of Covid-19 cases since the beginning of the year, we wanted to share information on testing, isolation and treatment.

Covid-19 Testing

Covid-19 can only be confirmed by PCR testing. It is advised that patients wanting to do the PCR test contact the hospital before hand to schedule an appointment – walk-ins might not be able to get tested right-away due to increased volume of tests performed. See contacts for appointment scheduling.

For PCR tests required for Fit-to-Fly certificates, please make an appointment 48hrs prior to appointment day.

Testing volume

Samitivej Sukhumvit

- RT-PCR 80-100 cases per day
- Fit to fly 80-100 cases per day

Testing result Pick-up time

Next day results (within 24hrs).

Location

Samitivej Sukhumvit:

For Covid-19 screening: ARI Clinic ground floor parking Building 2

For Fit-to-Fly certificate: Japanese building, ground floor

Covid-19 treatment

*Admission and treatment will depend on patient's risk factors and symptoms.

*Please note that the MoPH has announced on 14/01/2022 that asymptomatic Covid-19 patients below 60 years old can self-isolate at home.

Patient type	Green	<ul style="list-style-type: none"> No symptom patient Oxygen saturation > 96% Age < 65 year (Age < 7 year should have someone to take care of) Disease which can be cured by the treatment > 6 months 	Depends on Doctor consideration
	Yellow	<ul style="list-style-type: none"> Mild symptom or Not-severe symptom Oxygen saturation ≥ 96% No underlying disease or underlying disease which can be controlled Age < 65 year Weight < 100 KGS 	
	Red	<ul style="list-style-type: none"> Having symptom Oxygen saturation ≥ 96% No underlying disease or underlying disease which can be controlled Age < 65 year Weight < 100 KGS 	
Program and Capacity	Hospitel	272 rooms	
	Hospital	90 rooms	
	ICU	16 rooms	
Government Treatment Guideline for Home Isolation	1) Covid-19 patients who are newly diagnosed according to the criteria of diagnosis and the doctor considers that they can be treated at home. 2) Covid-19 patient who step down after receiving treatment at a government facility or hospital for at least 7 days can be discharge and continue to receive the treatment under the home isolation program.
